

How Common Is Asthma?

by NEWLIFEOUTLOOK TEAM

Impact on the Nation

You can help reduce your asthma flares by understanding the triggers for asthma. If you're outdoors, avoid pollen and keep in mind the air quality. Spend less time outdoors when the air quality is poor, since pollution can cause your asthma to become worse. You might feel that when you do any physical exercise that you're overheated and need air conditioning. Be careful, because cold air can actually irritate your asthma, since it contains less moisture than warm air and can dry out your lungs. Breathe through your nose when you're in air conditioning to help the air warm up on its way to your lungs.

ASTHMA'S IMPACT ON THE NATION

Asthma is **common**.

1 in 11 children have asthma

1 in 12
adults have asthma

Black children are
2 TIMES
more likely to have asthma
than white children.

went to an emergency department
for asthma-related care in 2009.

In 2009, there were:

479,000
asthma-related
hospitalizations

1.9 million
asthma-related
emergency
department visits

8.9 million
asthma-related
doctor visits

9 people **die** from asthma every day.

Black Americans are **2-3** times more likely
to die from asthma than any other racial or ethnic group.

Asthma is **disruptive**.

NEARLY
1 in 2
children with
asthma report
missing at least
1 day of school
each year because
of asthma.

3 in 5
People with asthma **limit**
their physical activity.

NEARLY
1 in 3
adults with
asthma report
missing at least
1 day of work
each year because
of asthma.

Asthma is **expensive**.

Asthma costs
OUR NATION
\$56 BILLION
per year

1 in 4

black adults **can't afford**
their asthma medicines.

1 in 5

Hispanic adults **can't afford**
their asthma medicines.
